CE-AGEING PLATFORM

Aims and objectives

The CE-Ageing Platform aims to:

- contribute to minimize negative effects and impacts of demographic Trends on an ageing society & economy;
- improve framework conditions (e.g. programmes, regulations) by adapting policies, governance processes and mechanisms to demographic change;
- reduce regional disparities as well as spatial segregation of target groups by providing a platform for exchanging knowledge on practices between urban and rural areas, between national and regional levels as well as at the transnational level;
- make better use of the existing endogenous potentials of an increasingly diverse and aging workforce by raising awareness on demographic change, developing ageing strategies as well as state of the art training concepts
- promote new service designs and up-grade skills and knowledge of the target group to meet the demands of SMEs as well as to contribute to sustainable change by establishing a joint strategy.

CE-AGEING PLATFORM

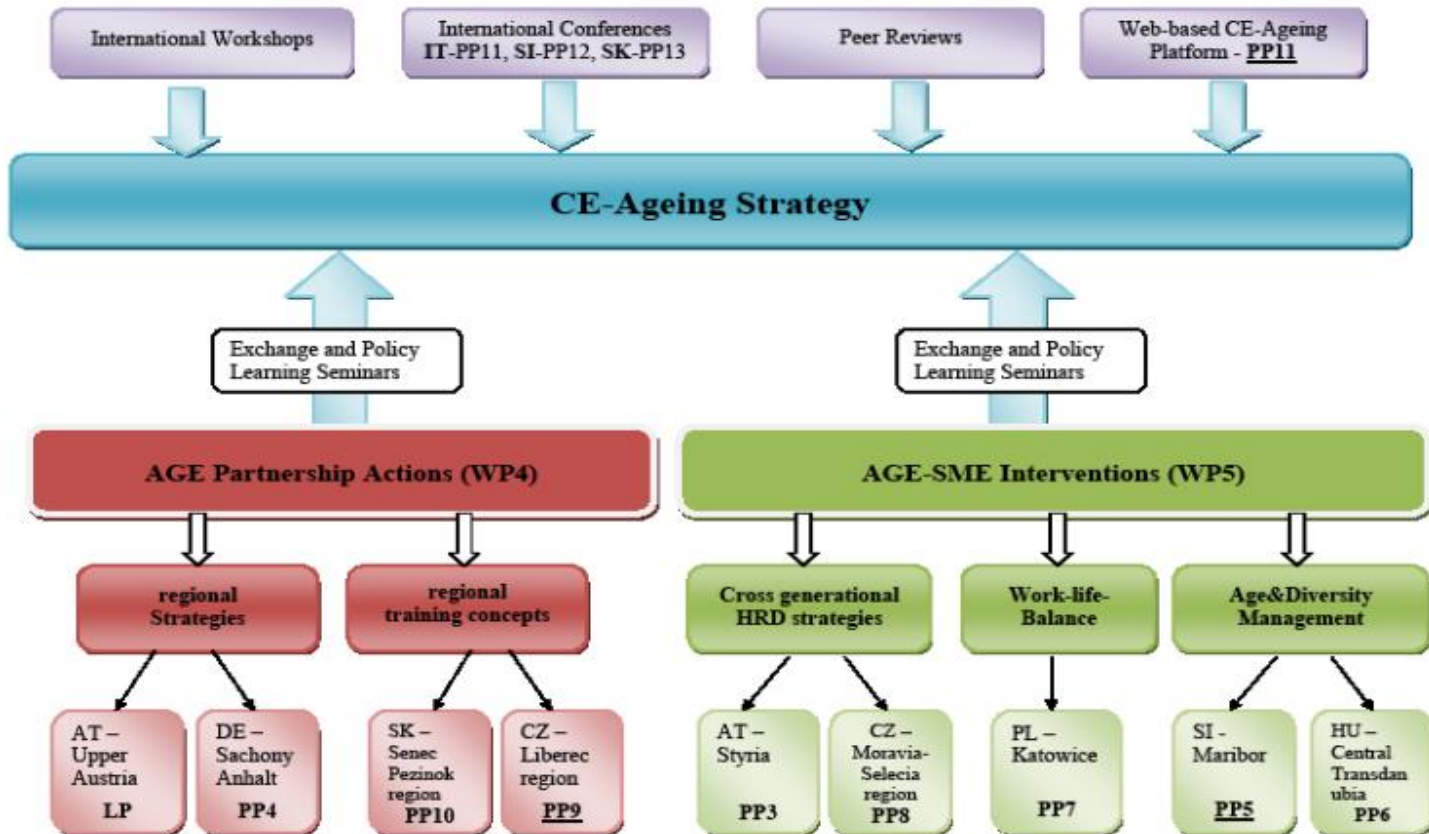

Expected results

- Joint 'Forum on Ageing in Central Europe' as well as development of an CENTRAL EUROPE AGE Strategy;
- establishment of Regional Ageing Platforms;
- implementation of innovative measures/services for SMEs in the area of diversity management, life-long learning (LLL), work-life balance and health.

The CE Strategy

Based on the CE-Ageing Vision

“In 2050 we want to live in an integrative society in which human well-being has top priority and equity is a reality”

the CE-Ageing Platform identified current challenges and potentials in respect to demographic change, developed trends and scenarios for CE, and established recommendations for policy change; all of which are presented in the green paper “Central European Ageing Strategy”.
