

## Introduction

DIGITOL is a European project funded by the Erasmus+ program of the European Commission. It aims to combat **hate speech and misinformation with digital literacy and intergenerational contacts** between more naturally proficient users (younger Europeans) and less digitally-literate users (older Europeans).

The DIGITOL consortium is keen on sharing the outcomes of its two-year long journey and its plans for the future.

It will be a moment to speak with policy and technology experts about how intergenerational learning provides occasions for sharing practices between young and older adults and for strengthening alliances between generations.

## Agenda 11th of January 2022

### Schedule

#### *Part one: INFORMATION FOR INCLUSION*

- 9:00-9:30h Welcome by Age Platform Europe, European Commission and presentation of the speakers and partners;
